

**United States Environmental Protection Agency
Criminal Investigation Division
Investigative Activity Report**

Case Number:

0506-M723

Case Title:

Crego Lake

Subject of Report:

MI DEQ Karen Kajiya-Mills

Reporting Office:

Detroit, MI, Resident Office

Activity Date:

March 21, 2019

Reporting Official and Date:

Approving Official and Date:

[REDACTED]
[REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]
22-MAR-2019, Approved by: [REDACTED]
[REDACTED]

22-MAR-2019, Signed by: [REDACTED]

SYNOPSIS

On 03/21/2019, [REDACTED] from the United States (U.S.) Environmental Protection Agency (EPA) spoke with Karen Kajiya-Mills from the Michigan (MI) Department of Environmental Quality (DEQ) Air Quality Division. Mrs. Kajiya-Mills provided [REDACTED] with a copy of the DEQ's case file for the initial complaint in this case back in 2014.

DETAILS

On 03/21/2019, [REDACTED] from the United States (U.S.) Environmental Protection Agency (EPA) spoke with Karen Kajiya-Mills from the Michigan (MI) Department of Environmental Quality (DEQ) Air Quality Division. This conversation was initiated because the "Rick Cortis 2014 DEQ and Asbestos Report" (already attached) document, received from Mr. Cortis on 03/19/2019, listed Karen Kajiya-Mills on it.

Mrs. Kajiya-Mills was able to provide [REDACTED] a report from 2014 that showed among other things:

1. [REDACTED] from Williamstown Township emailed the MI DEQ about the alleged asbestos on the property of Wallace Storage Center on 09/11/2014
2. Jessica Magro, MI DEQ Air Quality, visited the Wallace Storage Center on 09/24/14 and conducted a search of the property
3. No suspect asbestos material was observed on the property

(See Attachment: 2014 MI DEQ Activity Report)

Pictures from the report that show where Mrs. Magro conducted her search, seem to match that of where Mr. Cortis said the asbestos was buried when questioned by [REDACTED].
